Five Star Training Academy
Presents

TRAIN THE TRAINER SERIES:

Five Star Crash Course

**New Car Technology,
Vehicle Extrication
and Your Safety**

You are cordially invited to attend the inaugural session of the Five Star Training Academy presenting the Five Star Crash Course: "New Car Technology, Vehicle Extrication and Your Safety". This hands on, cutting edge, Train the Trainer Class is a one day workshop sponsored by Volvo North America, Champion Rescue Tools and a variety of other respected suppliers to the extrication industry, is designed to help Training Officers learn the latest information about new vehicle technology, the challenges it presents to performing vehicle extrications and how to be successful (and safe) when dealing with MVAs involving newer cars.

In This Dynamic One Day Class You'll Learn:

- What is driving New Vehicle Technology (NVT) changes
- The real truth about NVT – details about new vehicle construction materials and techniques
- What impact NVT will have on your department and your ability to be successfully perform extrications on new cars
- Hands on Training exercises on new model vehicles, provided by Volvo Cars of North America
- An inside look at NVT using Volvo's exclusive training vehicle, with the outside stripped away exposing all internal structural and safety components!
- New Regulations that are due to hit the market making NVT situations even more difficult in 2010
- New liabilities facing you and your department due to NVT

Who Should Attend?

- Fire Department Training Officers, or anyone in a capacity to bring what they have learned and share it with critical department groups such as the extrication team, rescue tool committee, etc.
- Each attendee is required to participate in both the class-

room and hands on training portions of the class, and must provide their own PPE equipment

- Each attendee is assumed to have completed basic and extrication training – this is not a course for beginners!

When & Where is the Training Taking Place?

- The initial sessions were held in two, one-day classes in early February, 2009. Subsequent classes will be held every 2 months. Classes will start promptly at 8am and run through late afternoon. Due to the limited seating and our desire to make this a truly hands on event, attendance is by invitation only.
- Classes are held at the new Champion Rescue Tools Headquarters and Training Facility at 814 Berry Court, Upland, CA 91786 USA
- The class is free and offered at absolutely no cost to qualified and approved registrants

About the Instructors:

- The Five Star Academy teachers are all licensed, certified instructors
- Each is currently serving actively in the fire service
- Each has decades of experience performing hands on vehicle extrications and managing extrication operations
- Instructor credentials include teaching at the annual FDIC conference, NASCAR/Penske safety director, etc.

How Do I Register?

- Complete and return a copy of the Five Star Waiver of Liability/Registration Form
- All forms must be signed by attendee and also by their immediate supervisor authorizing their attendance. Forms that are incomplete or not signed will not be approved for participation
- Attendee acceptance is at the sole discretion of the Five Star Academy

Sponsored By:

Spaces are extremely limited for this event, so please reserve early, and only if you are extremely serious about attending.
